

# Introducing!

## ***New and Improved Handheld Transmitters!***

### **You Spoke, We Listened!**

At BWI Eagle our customers are always our top priority! Every decision we make is customer inspired and your feedback fuels our design process.

So it is with thanks to you and your suggestions, that we proudly introduce our newly redesigned handheld transmitters!

#### **PRODUCT IMPROVEMENTS**

- ◆ **More rugged enclosure with rubberized outer ring provides easier grip with better moisture and impact protection**
- ◆ **Improved membrane switch with carbon overlay allows for more button actuations**
- ◆ **Highly adhesive label adheres more tightly to membrane switch for a better seal against dirt & moisture**
- ◆ **Redesigned battery compartment uses rugged spring clips to eliminate loose battery contacts and make battery replacement easier**
- ◆ **Nine button transmitter now uses AA batteries for 3-4 times the battery life**
- ◆ **Sleek contemporary design is as unique as the high quality RF technology inside!**
