## AIR-EAGLE® XLT 900 MHz RF Receiver MODEL 44P-8-ESTOP-DC

### DESCRIPTION

The AIR-EAGLE XLT is an RF system designed for long range wireless remote control of electrical apparatus in a variety of industrial applications. This receiver has been specifically designed for E-Stop applications. It links with an E-stop transmitter for failsafe operation. Dip switches allow the user to select link-loss shutdown times, relay operation and whether power must be recycled to reset the system. The relays are capable of switching up to 5 amps @120VAC or 30VDC and can be directly interfaced with the customer's equipment or P.L.C. Seven user selectable frequencies allow multiple systems to be used in the same area. This receiver is capable of receiving remote signals transmitted from up to 2500 feet away.

### INSTALLATION

DISCONNECT DC Power from all equipment before installation.

1. Mount the AIR-EAGLE XLT RECEIVER in a convenient location.
2. Select options & frequency (See OPTIONS & FREQUENCY SET-UP)
3. Install relay wiring to terminal strip.
4. Install antenna onto connector located on the right side on the enclosure.
5. Connect DC power to the proper terminals in your control circuit.

### TERMINAL STRIP WIRING

1	N/O Relay #1	7	N/O Relay #3	13	(-) 9-36VDC INPUT
2	C Relay #1	8	C Relay #3	14	(+) 9-36VDC INPUT
3	N/C Relay #1	9	N/C Relay #3		
4	N/O Relay #2	10	N/O Relay #4		
5	C Relay #2	11	C Relay #4		
6	N/C Relay #2	12	N/C Relay #4		

### GENERAL OPERATION

*Prior to operation the user selects various options that control the link-loss shutdown, relay activation and system reset. (See OPTIONS & FREQUENCY SET-UP).*

When power is applied to the receiver, all relays will be in their de-energized state. When power is applied to the E-stop transmitter, it immediately begins sending a beacon signal that causes all relays in the receiver to energize, indicating the communications link. Upon an E-stop command, the selected relays immediately de-energize. Upon specified link-loss time, the selected relays de-energize. The system will then need to be manually reset or will automatically come back online as designated by the system operation option selected.

Dimensions (with mounting plate) 6.3" L x 4.8" W x 2.3" H

### CONTROLS AND INDICATORS

LED1	Illuminated when power is applied to receiver
LED2	Illuminated when relay #1 is energized
LED3	Illuminated when relay #2 is energized
LED4	Illuminated when relay #3 is energized
LED5	Illuminated when relay #4 is energized
RF1	RF module that receives data from the remote transmitter
REL1 thru REL4	Four SPDT output control relays

# AIR-EAGLE® XLT

900 MHz RF Receiver

**MODEL 44P-8-ESTOP-DC**

## OPTIONS & FREQUENCY SET-UP

The unit is shipped from the factory with all SEL1 switches in the open positions. By default, the link-loss shutdown time is set to .5 seconds; power must be recycled to reset the system following an E-stop event; all relays respond to either E-stop command; and the unit is operating on Frequency #1. If you wish to select different options and/or change the frequency, follow the instructions on the table below.

- 1) Remove power from unit
- 2) Remove top cover.
- 3) Select desired options and/or frequency using table below.
- 4) Reattach cover and apply power.
- 5) Programming is now complete.

LINK-LOSS SHUTDOWN				
SEL1 (SW1-2)	Link-Loss Shutdown Time in Seconds	SW1	SW2	
	0.5 (default)	OPEN	OPEN	
	0.25	CLOSED	OPEN	
	1	OPEN	CLOSED	
	1.5	CLOSED	CLOSED	
SYSTEM RESET OPTIONS				
SEL1 (SW3)	System Reset Requirement	SW3		
	Power must be recycled to receiver following any E-stop event (default)	OPEN		
	Relays revert to energized state upon release of E-stop button and resumption of communication link	CLOSED		
RELAY RESPONSE OPTIONS				
SEL1 (SW4)	Relay Response to E-Stop Event	SW4		
	All four relays de-energize upon E-stop command <b>OR</b> link-loss (default)	OPEN		
	Relays 1 & 2 de-energize upon E-stop command; Relays 3 & 4 de-energize upon link loss	CLOSED		
FREQUENCY SET-UP				
SEL1 (SW5-7)	Network Frequency	SW5	SW6	SW7
	1 (default)	OPEN	OPEN	OPEN
	2	CLOSED	OPEN	OPEN
	3	OPEN	CLOSED	OPEN
	4	CLOSED	CLOSED	OPEN
	5	OPEN	OPEN	CLOSED
	6	CLOSED	OPEN	CLOSED
	7	OPEN	CLOSED	CLOSED

## SPECIFICATIONS

DC Input	9-36VDC @ 10 WATTS
Relay Contacts	SPDT 5 amp @ 120VAC or 30VDC per channel
Fuse Protected	1 amp
Receiver Range	Approximately 2500 feet (Up to 4 miles with external antenna - see accessories)
Receiver Frequency	900 MHz Spread Spectrum
Receiver Channels	Seven independent network frequencies
Operating Temperature	-40° F to +185° F
Enclosure	Polycarbonate, IP66 (NEMA 4)
Weight	Approx 2 lbs.

## APPROVALS

United States (FCC)	MCQ-XB900HP
Canada (IC)	1846A-XB900HP

## ACCESSORIES

Standard Antenna (Included):	
900MHz Portable Antenna (For distances up to 2500 feet*)	49-1103
Optional Antennas and Accessories – Used to increase range in both non line of sight and line of sight applications. - Contact BWI Eagle for recommendations	
900MHz Omni Directional Antenna (For distances up to 2 miles*)	49-3101
900MHz 13dB Yagi Antenna Long Range Operation (For distances up to 4 miles*)	49-3102
Flex Coax Cable w/Connectors	49-4000-XX (XX = # of Feet)
Inline Lightning Arrestor	49-5002
2 Ft. Bulkhead Assembly (Used when mounting receiver inside another enclosure)	49-5004
* = Line of Sight	

## LIMITED WARRANTY STATEMENT

BWI Eagle Inc. warrants the Air-Eagle Remote Control System, if properly used and installed, will be free from defects in material and workmanship for a period of 1 year after date of purchase. Said warranty to include the repair or replacement of defective equipment. This warranty does not cover damage due to external causes, including accident, problems with electrical power, usage not in accordance with product instructions, misuse, neglect, alteration, repair, improper installation, or improper testing. This limited warranty, and any implied warranties that may exist under state law, apply only to the original purchaser of the equipment, and last only for as long as such purchaser continues to own the equipment. This warranty replaces all other warranties, express or implied including, but not limited to, the implied warranties of merchantability and fitness for a particular purpose. BWI Eagle makes no express warranties beyond those stated here. BWI disclaims without limitation, implied warranties of merchantability and fitness for a particular purpose. Some jurisdictions do not allow the exclusion of implied warranties so this limitation may not apply to you. To obtain warranty service, contact BWI Eagle for a return material authorization. When returning equipment to BWI Eagle, the customer assumes the risk of damage or loss during shipping and is responsible for the shipping costs incurred.
